

THE DATA INCUBATOR FELLOWSHIP PROGRAM

The Data Incubator is a world-renowned data science training program designed to give PhDs and Masters students the skills they need to transition from academia into the business world.

Our instructors are some of the best and brightest data scientists of today, and have worked for MIT, Verizon, JPMorgan Chase and other amazing organizations.

If you're selected to join our exclusive program, here are a few things you need to know.

SCHOLARS

Scholars must possess strong potential as a data scientist to be admitted into the program. If you're accepted as a Scholar, you can expect to receive exceptional, high-quality training from our expert instructors.

Scholars are welcome to secure funding from other sources as well.

PLACEMENT SERVICES

We partner with a wide range of organizations to find positions for our Fellows. As a Fellow, you agree to let us try to place you for three months after the program. It's the funds we receive from businesses when we place a Fellow that allows us to offer this program free to you. Our partners cross all industries, from startups to Fortune 500 companies.

HOUSING

Once you've been accepted to the program, we'll let you know which of our locations you've been admitted to: New York, San Francisco, Washington, D.C. or online, based on your application.

If you don't already live in the area, now is a great time to start looking for housing options. We've included the neighborhoods where our offices are located.

Uptown Oakland

DC

Dupont Circle

Final note for Scholars: Full payment of tuition is due no later than 1 week before the start of the program.

Earn \$1,000 discount off your tuition if you pay upfront instead of using a loan.

Final note for Fellows: All Fellows must attend one of our in-person locations for their cohort. The online option is only available to Scholars at this time.

The Data Incubator's Fellowship program trains the data scientists of tomorrow. Our rigorous, intensive 8-week bootcamp focuses on teaching the tools and techniques most in-demand for today's businesses. Learn more about us at TheDataIncubator.com.
