

Diversity at The Data Incubator

TDI supports the next generation of leaders in our industry, and we're dedicated to growing diversity in the STEM field. We value inclusive and diverse workplaces where we seek a broad range of perspectives and contributions to our industry.

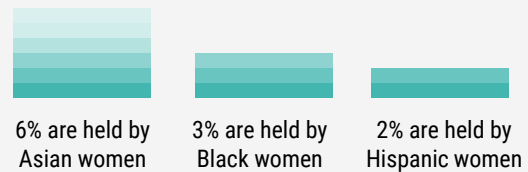

DID YOU KNOW?

In the tech world today:

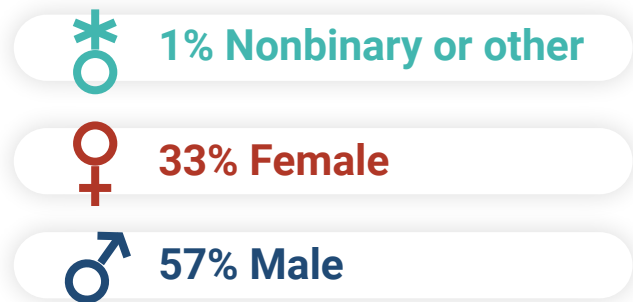

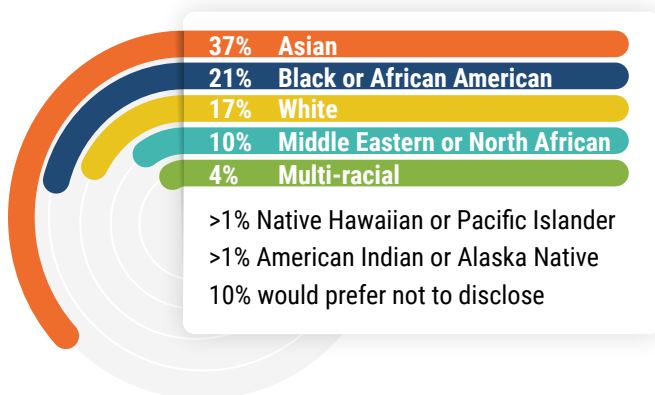

Less than 20% of tech jobs are held by Latinx and Black professionals

Only 25% of tech jobs are held by women

We've made it our goal to provide data science training to everyone. In 2021, our applicants were:

9% would prefer not to disclose

Diversity Scholarships

TDI's scholarships will contribute to the creation of diversely talented students that will fully represent our industry and through them, we will award up to \$200,000 annually.

TDI's Diversity, Equity & Inclusion Scholarship awards \$3,000 to one of our data bootcamps for women, veterans, LGBTQIA+ and those from racial and ethnic backgrounds who are traditionally underrepresented in data.

TDI's Women of Excellence in STEM Scholarship awards \$3,000 to women in STEM who traditionally make up less than one-third of all employees in the tech sector and just 11% of data scientists.
