

Here at The Data Incubator, we value inclusive and diverse workplaces where we seek a broad range of perspectives and contributions to our industry.

Our scholarships will contribute to the creation of diversely talented students that will fully represent our industry and through them, we will award up to \$200,000 annually. We believe that everyone has a right to education regardless of social barriers and are committed to combatting the lack of diversity in STEM.

THE DATA INCUBATOR

DIVERSITY, EQUITY & INCLUSION SCHOLARSHIP

TDI is committed to removing barriers and providing opportunities for women, veterans, LGBTQIA+ and those from racial and ethnic backgrounds who are traditionally underrepresented in data. We are here to support the next generation of leaders in our industry, and we are focused on growing diversity within the STEM fields.

The Data Incubator Diversity, Equity and Inclusion Scholarship (DEI) will contribute to the creation of diversely talented students that will fully represent our industry. Through this scholarship, we will award up to \$100,000 annually.

The Scholarship

Recipients of the DEI Scholarship will receive \$3,000 off their tuition to any of our data bootcamps (excluding the data science essentials course).

Students will be notified of their scholarship award when they receive their acceptance to the program of their choice.

Recipients of the scholarship must attend the cohort for which they applied, are not able to defer to another session and must commit to all program requirements.

Eligibility

Applicants must meet the following criteria to be considered for the scholarship:

- ✓ Located in the U.S.
- ✓ Identify with one or more of the following groups:
 - Women
 - Veterans
 - LGBTQIA+
 - Underrepresented ethnic and racial groups
 - Indigenous American/Native American or Alaskan Native
 - Asian
 - Black
 - Hispanic or Latino
 - Native Hawaiian or other Pacific Islander
- ✓ Bachelor's degree from an accredited university in a STEM-related field such as science, technology, engineering or math

Application

To be considered for the scholarship, you must include:

- ✓ A completed and submitted application to one of our data bootcamps (excluding data science essentials)
- ✓ An up-to-date resume
- ✓ A completed and submitted scholarship application

Selection Process

Applicants will be selected to receive the scholarship based on:

- ✓ Eligibility requirements
- ✓ Academic background and record
- ✓ Work experience (6 months to 2 years of relevant work experience in a data role)
- ✓ Interview and presentation that showcases your ability to communicate how you can apply your academic and work past to your future career goals
