

Student Success

WITH THE DATA INCUBATOR

TDI alumni earn an average base salary of \$128k—that's 24% more than the industry standard of \$103k. Some of our students have been offered salaries of \$170k or more, and that doesn't include bonuses!

So what does a successful TDI graduate look like?

Pretty awesome, if you ask us. Really awesome, if you ask our graduates.

"I would not have my current job without you—thank you. The program worked for me, as I'm sure it will work for similarly skilled data scientists who are looking to transition into a role in industry." –TDI ALUMNI

"It was a great starting point to my data science career. It is hands-on and covers top techniques and applications needed for machine learning."

–GEORGINA GONZALEZ-ISUNZA,
TDI ALUMNI

"I've never learned more in a 2 month period. It was incredibly challenging, but I got to be around and learn from some brilliant people. It was also invaluable for getting my career started as a data scientist."

–DAVID MICHEL, TDI ALUMNI

"The professional connections were invaluable and after taking the TDI fellowship program, I walked away with several offers." –TDI ALUMNI

TDI STUDENT SUCCESS BY THE NUMBERS

88

88% of TDI alumni are employed within 6 months of completing the program

97

97% of TDI alumni are currently employed outside of academia

TDI alumni hold a variety of different roles:

44%
are data
scientists

11%
are senior
data scientist

10%
are data
analysts

9%
are data
engineers

5%
hold titles of
manager or higher

What Sets TDI Apart

TDI is more than your typical bootcamp. We're a collaborative program where our students work on projects they're passionate about—which, in our experience, leads to thriving, business-minded individuals. Students work closely with our industry partners, subject matter experts (in both data and industry) and experienced instructors to gain the necessary skills to jumpstart their data career, connect with top companies and earn more than those outside a fellowship.
